### INVC NEWS

#### New Delhi,

The concept of smart homes appliances in India has evolved greatly over the last few years. From turning the light off with just one touch on your smartphone to commanding a robot to clean your room , smart home appliances have now gone to being just one voice command away. Below are some key products that have facilitated the smart home appliances in 2019.

#### **Smart Robot: Roomba i7+**

The Robotic vacuum cleaner have made cleaning a fun job. The Roomba® i7+, a Robot Vacuum with Clean Base™ Automatic Dirt Disposal takes convenience to a new level - automatically emptying into an enclosed, disposable bag that holds 30 robot **bins**, so you don't have to think about vacuuming for weeks at a time. The i7+ robot learns, maps and adapts to your home using Imprint™ Smart Mapping technology, letting you control which rooms are cleaned and when. Wherever you are, you can control when, where, and how your robot cleans from the iRobot HOME App for a truly customized clean.

#### **Smart Speaker: Amazon Echo Dot**

Smart Speakers are one of the coolest devices, as we can control almost every smart home appliance through them. They almost have answers to all our questions; they can play music, read news and what not. Amazon Echo Dot is one such smart speaker which is sleek and compact designed which makes it a convenient addition to any room in the house. You can place Dot in the anywhere, for example you can place it in the bedroom and use it to play music, set alarms and turn off your lights. Or put it in the living room to check news, sports scores, calendar, and movie show times. Or use it in the kitchen to set timers, add items to lists and shop for millions of products on Amazon just using your voice.

### **Smart TV :P8M AI Android TV by TCL**

Upgrading one's idiot box to artificially intelligent home entertainment got larger than life this year, and TCL saw to it. After rocking all through 2019 with its cutting-edge range of AI-powered Android TVs, the Global Top-2 TV Corporation went ahead and unveiled P8M. The 85-inch monster entertainer comes with TCL's promise of AI + IoT, enhancing the viewing experience with AI-powered algorithm. The algorithm goes through the content in real-time to upgrade brightness, contrast, surround sound, and other audio-video fundamentals to give a dynamic and accentuated viewing experience in real-time. Offering voice-based controls, the TV also allows users to control other smart home devices, simply through voice commands. With this, the TV also comes with TCL's extensive content library, offering over 950,000 hours of content in 25 languages, in tandem with industry leaders like Netflix, YouTube, Hotstar, JioCinema, Eros Now, Zee5, YuppTV, Voot, AltBalaji, and many more.

### **Smart Water Heater: V-Guard**

We've reached a day when even bath-time can be made smarter with gadgets like IoT-enabled Verano water heater. Using cloud-based technology, the smartphone-compatible appliance can be controlled remotely from anywhere in the world. Through the V-Guard Smart app, one can monitor it, turn it on/off, and schedule it to operate automatically according to what time you plan to go and bathe every day - and at the perfect temperature! Once set up, it works on its own, making for an energy-saving, time-efficient alternative that eliminates the trial-and-error one has to go through with most regular water heaters.

### **SMART SCREENS: 4k LED Smart Screens launched by CloudWalker**

Upgrading one's idiot box to artificially intelligent home entertainment got larger than life this year, and Cloudwalker Streaming Technologies saw to it. After rocking all through 2019 with its cutting-edge range of AI-powered Android TVs, the revolutionary tech company went ahead and unveiled 4K LED SMART SCREENS. Available for sale on Amazon in 3 screen sizes - 43", 55" & 65", the monster entertainer is powered by a built-in Certified AOSP operating system and Content Discovery Engine that brings thousands of hours of global entertainment, curated all in one place. Combined with 4K UHD resolution and HDR 10 (high dynamic range) picture technology, the SMART SCREEN is an ultimate feast for your eyes, bringing the smallest details with the brightest whites and the darkest blacks for a perfect contrast and depth in pictures with 4K Enhancer technology. Powered by Android 7.0 Nougat OS, High-performance processor, 1 GB RAM, 8 GB internal storage, the SMART SCREEN promises powerful & fast performance for multi-tasking with automatic periodic updates via OTA and 20W of powerful, cinema-like sound experience with in-built box speakers.
