Our exclusive program now makes the EU citizenship even more accessible for a wider cross section of applicants. In addition to Cyprus, we have devised similar programs for Greece and Turkey, which obviously come at a fraction of the cost. We aim to make the acquisition of residencies more accessible for desirous applicants through our experience and service network across these regions."

The Vazir Group Consultancy series of events are scheduled for later this year. It is pertinent to state here that the India venture will be a prelude to establishment of Vazir Group's largest branch office in India.

However, realizing the recent surge and increase in investors from India, a service on homeground was the obvious move. Our team and process involves our in house legal professionals, documentation auditors with governmental experience and expert consultants that allow us to maintain our 99% + success rate for desirous applicants."
