New Delhi,

India has crossed a crucial milestone in its fight against the global pandemic. **The daily new cases have touched a new low today.**

9,102 daily new cases were added to the national tally in the last 24 hours **after 237 days**. The daily new cases were 9,304 on 4th June, 2020.

With a sustained, pro-active and calibrated strategy of the Centre based on 'whole of government' and 'whole of society' approach, the daily new cases have seen a consistent decline. This has ensured a steady fall in daily fatalities too. **The country has recorded less than 120 (117) fatalities in the last 24 hours after more than 8 months (8 months 9 days).**

Daily deaths less than 120 after 8 months

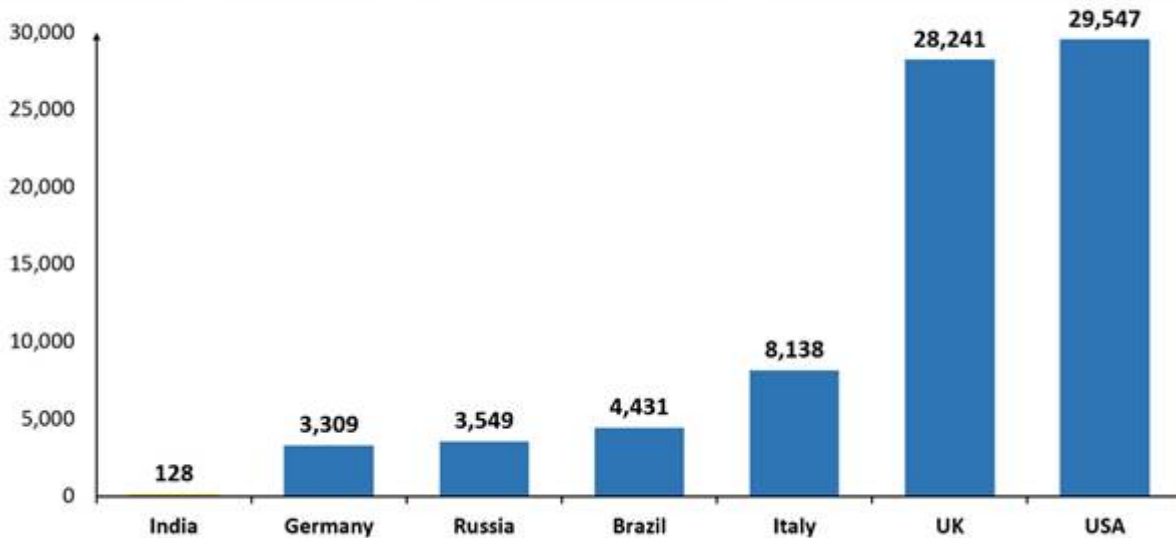

India's active caseload has fallen to **1,77,266** today. The share of Active Cases in the total Positive Cases has further compressed to **1.66%** of the cumulative caseload.

A net decline of **6,916** cases has been recorded in the total active cases in last 24 hours.

Active cases per million population is lowest in the world (**128**). Germany, Russia, Brazil, Italy, UK and USA have much higher cases per million population.
